PROFESSIONAL SUMMARY

Computer Science Engineering student with strong foundations in data structures, algorithms, and full-stack development. Experienced in building scalable, user-centric web applications and RESTful APIs using React, Node.js, and MongoDB. Product-minded problem solver with hackathon-winning experience, strong ownership, and enthusiasm for building reliable software in fast-paced startup environments.

EDUCATION

Bachelor of Engineering in Computer Science Engineering

Chitkara University, Rajpura, Punjab

Current CGPA: 8.17/10

Class XII–Central Board of Secondary Education

O.S.D.A.V Public School, Kaithal, Haryana

Score: 81.6% | Year:2023

SKILLS

- **Programming Languages:** JavaScript, Java, C++
 - **Frontend:** React.js, HTML, CSS
 - **Backend & APIs:** Node.js, Express.js, RESTful API Development
 - **Databases:** MongoDB, Familiar with SQL databases (MySQL/PostgreSQL)
 - **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, System Design Fundamentals
 - **Tools & Cloud:** Git, GitHub, AWS (EC2, S3 – basics)
 - **Soft Skills:** Problem Solving, Product Thinking, Team Collaboration, Communication
-

PROJECTS

- **Complaint Feedback System (Full-Stack):** Developed a SaaS-style web application for complaint registration and tracking by building RESTful backend APIs, integrating databases, and implementing frontend components.
 - **Hospital Management System (Spring Boot, Hibernate):** Built a backend-driven application enabling patients and doctors to view and manage appointments, with REST APIs and database integration for efficient record handling.
 - **AI Learning Assistant (Ongoing):** Developing a backend-driven learning assistant with API integration to support users in understanding programming concepts.
-

ACHIEVEMENTS AND RECOGNITIONS

- **Winner, Women-Centric Hackathon 2025 | Edifecs:** Recognised for developing an innovative technical solution in a competitive programming environment.
- **Deloitte Technology Job Simulation | Forage 2025:** Gained hands-on experience in software development lifecycle through practical task simulations.
- **Solved 300+ Data Structures and Algorithms problems:** Demonstrating problem solving and coding proficiency
