

MANDEEP KAUR

Aspiring Software / Machine Learning Engineer | Skilled in

Problem Solving, DSA, and Full-Stack Development

Contact: +917988650994

PROFESSIONAL SUMMARY

Computer Science Engineering student with strong fundamentals in programming, Object-Oriented concepts, and Data Structures & Algorithms. Hands-on experience in Machine Learning and Python Full-Stack development through real-world projects including a Job Recommendation System and an AI Learning Assistant. Demonstrated ability to apply ML concepts, integrate APIs, and build end-to-end solutions with a strong learning mindset and collaborative approach.

EDUCATION

Bachelor of Engineering in Computer Science Engineering

Chitkara University, Rajpura, Punjab

Current CGPA: 8.17/10

SKILLS

- **Core CS:** Object-Oriented Programming (OOP), DSA, SQL, SDLC
 - **Programming Languages:** Java, C++, Python
 - **Machine Learning & AI:** ML basics, data preprocessing, model evaluation, LLM concepts
 - **Tools:** Git, GitHub, Jupyter Notebook
 - **Full-Stack Development:** Python, JavaScript, React.js, Node.js, Express.js, REST APIs, MongoDB
 - **Soft Skills:** Collaboration, Learning Mindset, Problem Solving, Accountability
-

PROJECTS

- **Job Recommendation System (Machine Learning)** – Designed and implemented an ML-based job recommendation system using real-world datasets through data preprocessing and feature extraction, and integrating similarity-based recommendations into a web application.
 - **Complaint Feedback System (Full Stack)** – Developed an end-to-end web application for complaint registration and tracking by building backend APIs, integrating databases, and implementing frontend components.
 - **AI Learning Assistant (Ongoing)** – Developing an AI-powered learning assistant to help users understand programming concepts, exploring LLM integration and responsible AI usage for educational support.
-

ACHIEVEMENTS AND RECOGNITIONS

- **Winner, Women-Centric Hackathon 2025 | Edifecs** – Recognized for developing an innovative technical solution in a competitive programming environment.
- **Deloitte Technology Job Simulation | Forage 2025** – Gained hands-on experience in Software Development Lifecycle through practical task simulations.
- **Solved 300+ Data Structures and Algorithms problems** – Demonstrated problem-solving and coding proficiency by solving over 300 Data Structures & Algorithms problems.
