PROFESSIONAL SUMMARY

Computer Science Engineering student with strong fundamentals in Java and software testing. Experienced in API testing using Postman, validating REST APIs, and documenting test cases and defects. Quick learner with an analytical mindset, eager to contribute to test automation coverage and product quality.

EDUCATION

Bachelors of Engineering in Computer Science Engineering

Chitkara University, Rajpura, Punjab

Current CGPA: 8.17/10 | 4th semester

12th-Central Board of Secondary Education

O.S.D.A.V Public School, Kaithal, Haryana

Score: 81.9% | Year:2023

SKILLS

- **Programming Languages:** Java, JavaScript
 - **Testing & Automation:** API Testing (Postman), Manual Testing, Test Case Design
 - **Testing Concepts:** REST APIs, HTTP Methods, Status Codes, STLC
 - **Web & App Concepts:** Client-Server Architecture, Web Application Workflows, Basic Mobile App Understanding
 - **Tools:** GitHub, Postman, Maven (Learning)
 - **Cloud:** AWS (Learning – EC2, S3)
 - **Soft Skills:** Analytical Thinking, Problem Solving, Documentation, Teamwork
-

PROJECTS

- **Complaint Feedback System (Full-Stack / API-Based)** - Built a SaaS-style complaint management system with RESTful APIs and database integration. Validated APIs using **Postman** by checking HTTP methods, status codes, and response payloads. Documented test cases and verified end-to-end workflows.
 - **Hospital Management System (Spring Boot, Hibernate)** – Developed backend REST APIs for managing appointments and records. Performed API and manual testing using Postman to ensure data accuracy, business logic validation, and proper error handling.
 - **AI Learning Assistant (Ongoing)** – Working on a backend-driven learning assistant with API integration. Tested APIs using Postman, validated responses, and identified edge cases to improve reliability and future automation readiness.
-

ACHIEVEMENTS AND RECOGNITIONS

- **Winner, Women-Centric Hackathon 2024** – Recognised for developing innovative technical solution in competitive programming environment.
- **Deloitte Technology Job Simulation | Forage 2025** – Gained hands-on experience in software development lifecycle through practical task simulations.
- **Solved 300+ Data Structures and Algorithms problems** – Demonstrating problem solving and coding proficiency
